PROFESSIONAL SUMMARY

Final-year undergraduate software engineer specializing in full-stack development, with hands-on industry experience in enterprise-grade systems. Completed a 6-month Software Engineer Internship on aeroPORT, a live Departure Control System (DCS) used by Air Arabia, working across backend, frontend, microservices and data processing pipelines. Strong foundation in Java, Spring Boot, React.js and modern engineering practices including Agile/Scrum, code quality and automated testing. Passionate about building scalable, maintainable systems and continuously improving software quality.

SKILLS

Programming Languages: Java, JavaScript, Python, C++, SQL

Backend and APIs: Spring Boot, REST APIs, gRPC, Apache Kafka, Microservices Architecture, Event-Driven Architecture

Frontend and Mobile: React.js, Next.js, HTML, CSS, Bootstrap, Android (Java), Flutter, Firebase

Databases: PostgreSQL, MySQL

DevOps and Tools: Git, Bitbucket, GitHub, Docker, Microsoft Azure, SonarQube, Postman

Practices: Object-Oriented Programming, Unit Testing, Code Refactoring, Agile/Scrum

Soft Skills: Teamwork and Collaboration, Analytical and Logical Thinking, Problem Solving, Adaptability and Continuous Learning, Communication in Agile Teams

Spoken Languages: English (Fluent), Sinhala (Native)

WORK EXPERIENCE

Software Engineer Intern — Jul 2025 – Jan 2026

Information Systems Associates (Pvt) Ltd · Colombo, Sri Lanka

- Engineered features for aeroPORT, a microservices-based Departure Control System (DCS) used by Air Arabia for check-in, boarding, baggage and passenger operations.
- Developed Java and Spring Boot backend flows that process Passenger Name Lists (PNL) for operational use, including check-in, seat assignment and boarding.
- Implemented enhancements across core DCS modules, on both backend services and React.js/Next.js frontend components.
- Debugged complex data flows spanning multiple microservices, Apache Kafka topics and gRPC calls to identify and resolve system issues.
- Refactored backend services to improve code quality, readability and maintainability.
- Improved frontend unit test coverage to meet SonarQube quality standards.
- Worked in an Agile/Scrum team, participating in sprint planning, daily stand-ups, reviews and retrospectives.

Technologies: Java, Spring Boot, React.js, Next.js, PostgreSQL, Apache Kafka, gRPC, REST APIs, Microservices, SonarQube, Git, Bitbucket

PROJECTS

GroceryEase: Web-Based Grocery Management System — 2024 – 2025

Web Application Development · Java, Spring Boot, React.js, JavaScript, MySQL · github.com/Manditha77/groceryease_sdp

- Developed a full-stack grocery store management system for Samantha Store, with a Spring Boot backend and a React.js frontend.
- Built an e-commerce platform for customer pre-ordering, with inventory tracking, credit sales management and supplier coordination.
- Uses a MySQL database; planned for Microsoft Azure deployment with security enhancements.

PROJECTS (CONTINUED)

Employee Management System **2025**
Web Application Development · Java, Spring Boot, JavaScript, HTML, Docker, Azure · github.com/SenudaJK/Employee-Management

- Developed a full-stack Employee Management System with Spring Boot, JavaScript and HTML.
- Implemented CRUD operations for employee records.
- Deployed using Docker and hosted on Microsoft Azure with security enhancements.

Recipe App (GoodEats) **2024**
Mobile App Development · Java, Android Studio, Firebase · github.com/Hasindu071/GoodEats9

- Built an Android recipe app using Java in Android Studio.
- Integrated Firebase for data storage and user authentication.

Calculator App **2024**
Mobile App Development · Flutter · github.com/Manditha77/Calculator_app_using_flutter

- Developed a Flutter-based calculator app for iOS and Android, designed with a clean UI and efficient mathematical operations.

Inventory Management System **2024**
Web Development · HTML, CSS, JavaScript · github.com/ImeshLiyanaarachchi/WebProject

- Developed a web-based inventory management system using HTML, CSS and JavaScript, built in VS Code with a focus on usability and efficiency.

EDUCATION

BSc (Hons) Management and Information Technology **2023 – Present**
University of Kelaniya, Sri Lanka · Specialization in Information Technology · Current GPA: 3.36 / 4.00

Diploma in English **2022**
BritishWay English Academy · Distinction pass

G.C.E. Advanced Level Examination **2021**
Dharmapala College, Pannipitiya · Mathematics Stream with ICT · Results: B, B, C · Z-score: 1.3277

G.C.E. Ordinary Level Examination **2017**
Dharmapala College, Pannipitiya

LEADERSHIP AND ACTIVITIES

Technical Team Member, International Research Conference on Smart Computing and Systems Engineering (SCSE) **2025**
Department of Industrial Management, University of Kelaniya

Main Coordinator, IM Auwrudu **2024**
Industrial Management Science Students' Association, University of Kelaniya

Technical and Organizing Team Member, hackX 9.0 **2024**
Industrial Management Science Students' Association, University of Kelaniya
